

VAN DER VALK

ValkField - Single Row

ValkField - Double Row

Open fields are well suited as a location for solar installations. Along with providing many square meters of surface area, they also have the space required to place the installations in the most favourable position facing the sun. The Van der Valk field systems are flexible and can be easily adjusted to fit any space. The following two basic systems are applicable to any type of surface. With the use of screw piles, concrete pads, driven piles and ballast, you'll always have the right foundation for your situation.

Communal features

Both field systems share the following key characteristics:

- ✓ Clamp system in portrait configuration
- ✓ Easy assembly
- ✓ Any tilt angle possible
- ✓ Available in short or long lengths, depending on the location
- ✓ Also available as kits

ValkField - Single Row

Unique to this system:

- ✓ Holds one row of panels
- ✓ Reduced wind load due to low height
- ✓ Ideal for small surfaces or where there are height limitations
- ✓ Maximum ease of installation due to a limited number of components

ValkField - Double Row

Unique to this system:

- ✓ Holds two rows of panels
- ✓ Suitable for medium to large projects
- ✓ Very durable construction

Foundations Field Systems

The **ValkField – Single Row** and the **ValkField – Double Row** are applicable to any type of surface. Depending on the nature of the surface, the foundation can be secured by screw piles, concrete pads, driven piles or ballast in the form of concrete bars. The primary aim is to achieve maximal stability.

Screw piles

Concrete pads

Driven piles

Ballast

	ValkField Single Row	ValkField Double Row
Screw piles	✓	✓
Concrete pads	✓	✓
Driven piles	✓	✓
Ballast	✓	✓

This specifies which foundation can be applied.

Glass panels

As well as the standard solar panels with a frame, solar panels without a frame can also be mounted using glass clamps.

Van der Valk Solar Systems develops and produces solar mounting systems for:

Pitched roofs

Flat roofs

Open fields

Greenhouses

VAN DER VALK

SOLAR SYSTEMS

WHY VAN DER VALK SOLAR SYSTEMS?

- Innovative systems developed in compliance with applicable worldwide standards
- Fast and reliable deliveries thanks to modern machinery and large stocks
- System supplier since 1963
- Free software for project design and project calculation
- All systems applicable to any type of roof or surface
- Quick assembly thanks to premounting of essential components
- All systems available in portrait as well as landscape configuration
- Various systems also available as ready-to-use kits

The mounting systems of Van der Valk Solar Systems are delivered and installed by an extensive network of dealers and installers. We would be happy to help you find your closest point of contact.

For more information (i.e. datasheets, pricelists and manuals) go to the downloads on our website.
